

Your Electronic Guide to Fishing in Ontario

Fish ON-Line Web Tool

[Google Search = Fish ON-Line](#)

Fish ON-Line is your one-stop digital source for information on over 13,000 lakes across Ontario. You can also access it using your mobile device. Key points of interest include:

- What fish species are present in each lake
- Lake characteristics, such as: max depth, average depth, surface area
- Ability to print a depth contour map for more than 1,100 lakes
- Assess to all the regulations and exceptions for each specific lake.
- Fish stocking history
- Submit an angling survey
- Locate Service Ontario locations where licences are sold and MORE....

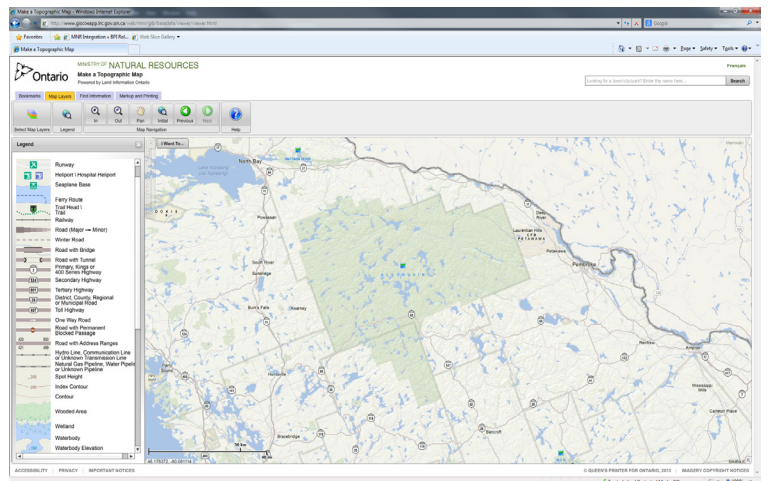

Make a Topographic Map Web Tool

<http://www.giscoeapp.lrc.gov.on.ca/web/mnr/gib/basedata/viewer/viewer.html>

Find out the best way to access your fishing spots by using the Make a Topographic Map application.

You can make a custom map for any part of Ontario to include features such as: roads, trails, lakes, rivers, wooded areas, wetlands, provincial parks, as well as municipal and township boundaries. You can even display areas using satellite imagery.

Crown Land Map Browser

[Google Search = Crown Land Use Atlas](#)

Not sure of the general boundaries of crown vs. private land? Use this tool to view the boundaries of crown land use areas. However, please note that due to the limitations of mapping data, this tool cannot be used to precisely identify on-the-ground locations of features such as privately-owned lands, roads or other locations.
